Weight and volume data

Leila, Deneb, Tomas, and Fern measured the weight and volume of a sample of material, and recorded their measurements in a data table. Two of the samples were water. They forgot to write down the kind of material they used.

	Material	Weight of sample	Volume of sample
Leila		42 g	41 cc
Deneb		28 g	20 cc
Tomas		178 g	178 cc
Fern		76 g	59 cc

The two people who used samples of *water* are:

Reasons are:
